

THE RUSSIAN STYLE EVOLUTION -

THE STORY OF RUSSIAN FASHION

Russian street style is making its mark on the global fashion industry, from the catwalk to the high street. Here's why. Russian street style might not conjure images of high glamour, but the look is making its mark on the global fashion industry, from the catwalk to the high street. In-demand Muscovite designers, such as Gosha Rubchinskiy and Andrey Artyomov, have brought the "post-Soviet" style to Paris, London and New York fashion weeks.
